Print-spec exception sheet

BPC-157 10 mg | Artwork BPC157-10-WEB-SUPPLIER-v3 | Physical packaging state: design

NOT PRESS READY

Website artwork is finished; physical production inputs remain supplier-owned or unconfirmed.

Supplier inputs required before a press-ready export

- Actual selected vial and closure manufacturer/specification.
- Finished label width and height, printable area, seam/overlap, bleed and safe area.
- Substrate/material, adhesive, finish, varnish or laminate.
- Print process, color profile, winding/orientation and roll core.
- Supplier-approved storage statement.
- Manufacturer/distributor legal attribution.
- Lot and expiry/BUD variable-data owner, format and application method.
- Applicable barcode or serialization requirement.
- Matched product-specific documentation/COA destination if a QR is required.

Explicitly not established by this package

- Supplier proof approval or supplier acceptance of physical dimensions.
- Printed or in-use packaging.
- Any lot number, expiry date or beyond-use date.
- Purity, assay, sterility, certification or CAS identifier.
- Documentation or COA link.

AUTHORITY AND SCOPE

Website artwork: KAN-59/10615 and KAN-225/10616.

Physical production: later supplier confirmation required. No supplier send occurred in this task.
